myUH (PeopleSoft) Password Expiration Notice in AccessUH

myUH (PeopleSoft) passwords expire every 180 days from the date you change or reset your password.

Currently, student, faculty and staff users who use their myUH (PeopleSoft) account to log into AccessUH will receive a notification, continuously for two weeks prior to the expiration of the password or until it is changed, in the left column indicating how many days are remaining with that password.

Users can call UIT Help Desk at 713-743-1411, use Live Chat or use the UIT Password Wizard to reset/change their password.
